1. A Schwerin (N 54/T 46) trucker reported that the local "ATG" (Automotive Transport Association) had finished the project Berik (N 55/O 51) in 1949. He also stated that 60 trucks from Schwerin had been assigned to this project.
2. In early January 1950 the Schwerin trucking firms were called upon by the "ATG" to report for a project in Laerz (N 54/U 32). Because of the critical time situation only a few of the firms had accepted, particularly since the "ATG" was not authorized to issue orders.
